### Listing details

Condition: Used  
Make: Wanted: Airframe that flies but is not spraying.  
Model: Any Turbine Frame  
Price: \$ 100,000.00

#### Description:

Wanted: Airframe that flies but is not spraying. Looking for a mostly CAM 8-compliant frame that flies but isn't spraying. PT6 preferred. Will be used for turbine proficiency and maneuver training with no application work. You can pull off the spray equipment for me and sell it cheaper. Can also sell the airframe with the PT6 and lease the engine so that you know it won't be harvested for parts. TT TTAF TTSO SMOH SHOT not super important, just need a semi-fresh annual with some life left. Will be flown mostly for recreational flying. Email Brett at [brett.ilsson@gmail.com](mailto:brett.ilsson@gmail.com) or call 802-391-0882
