Willingness to Travel:	Willing
Willingness to Relocate:	Yes
Work Experience:	More then 15 Years
Language Proficiency:	English

Job Description:

Corn Run Helicopter Pilot - I'm a 45-year-old Ag pilot from New Zealand, 6300 hrs TT, Grade 1 NZ Ag rating R22, R44, R66, B206, 206L4, AS350B, Ba, B2, B3 Uh1h, Hiller12et, Hughes 300, MD500,530f. Have experience with Trimble, TracMap, Tabula, and Satloc G4 GPS guidance systems. I've just returned home from Jerry Trimble helicopters after completing an FAA conversion. I'm looking at securing a seat for the corn run this season. I would need a sponsored H2-A temporary agricultural worker visa. I will need to complete a pesticide license when I return for work. Keen to establish a working relationship with a company in the USA that I can return to each year. I'd like to make use of our short quiet time to come to the USA and help with the corn run. I have a nil accident. Email h.macdonald@hotmail.co.nz or WhatsApp +64 27 6924750
