Listing details

Condition: Used
Year: 1976
Make: GMC
Model: 6500 Loader Truck
Price: \$ 10,000.00

Description:

1976 GMC Custom Built Loader Truck, designed to service an AT-502. I began restoring it in 2021 and will continue to work on it until it sells. The price will increase appropriately as improvements are made. I can also combine it with the sale of my Eagle DW-1 (listed separately) to make the beginnings of your own mobile spray operation! It runs and drives good, having driven 80+ miles to my residence with no problems. 2000-gallon stainless steel water tank with hoses and Honda pump motor and valve tree, and chemical mixing tank on rear decking (motor is good, pump needs overhaul) 500-gallon aviation fuel tank above water tank, operated by hydraulic pump (haven't tested this yet) 500-gallon dry hopper on hydraulic lift arms with hydraulic swing, works good, but main hydraulic arms leak a bit (old seals). Stows over the top for the road. 366 cu inch Chevy V8 gasoline engine - overhauled carburetor and air filter, replaced ignition cables, fuel lines, and fuel pump, overhauled fuel tank and sending unit. Starts and runs easily on the first try. Good tires and brakes - front driver's side tube replaced in 2026. The 5-speed split manual transmission works good, no problems. Brake lights replaced in 2021, and headlights work. Frame built very strong with custom reinforcement - in good condition. Cab/instrument cluster needs work, but is usable. Replaced driver's seat in 2021. This will be my next area to overhaul. Parked at my shop in central AR. \$10.000 Give Travis a call or text at 479-422-0081 Bomber Boy Aviation LLC
