Listing details

Job Type: Full Time
Job Title: Agricultural Pilot
Willingness to Travel: Willing
Willingness to Relocate: Yes
Work Experience: More then 10 Years
Language Proficiency: English, Portuguese
Job Description:

Brazilian aerial applicator pilot with 10+ years of experience and 2,500 hours in Air Tractor AT-402 and AT-502 turboprop. Strong background in corn, soybean and rice operations with GPS-guided precision application. FAA Commercial Pilot Certificate, ANAC Commercial and Agricultural licenses, CFI rating, ICAO English Level 4. Open for the 2026 corn run season. H-2A visa sponsorship required.

Available June through September for Midwest corn fungicide operations. Comfortable with high-tempo multi-client seasons, DGPS guidance systems (Satloc, AgPilotX), and coordinating with ground crews for optimized reload cycles. Board member of the National Association of Agricultural Pilots of Brazil. References available upon request.
