Listing details

Condition: Used
Year: 1999
Make: International
Model: 4700
Price: \$ 30,000.00

Description:

Up for sale is a 1999 International 4700 Auger Truck with a DT466 Diesel Engine and Automatic Transmission. It is a mild steel system with a straight auger and has a scale system. We have owned the truck for 7 years, and it has served us well. We just completed our cover crop season with the truck and are ready to sell it for a new truck that we have coming. The truck runs and operates great, but it does have some rust areas considering its age. The fuel system operated when we first got the truck, but it hasn't been used for the last 5 years because we started fueling off of our bulk truck instead. The truck is located at KSXK near Maurice, IA. \$30,000. Call 712-899-2017 for more information.
