Job Description:

Hello,

I am looking for spring/fall/winter work. I currently live in Spencer, Iowa, and fly from July to September. My goal is to own my own operation in the future. But for now, I want to get as much experience as possible. I have access to a turbine M18 Dromader if another aircraft is needed. I hold a commercial pilot license, an A&P license, an applicator license, and a CDL. Any contacts or information would be greatly appreciated.

Thanks, Sam
